

Are you our next teammate?

CompuSoft A/S in Denmark seeks IT support employee / consultant.

Interested in giving your career a new twist?

Ready to take responsibility and to provide professional IT consulting to some of the largest holiday resorts and tourism companies in Sweden?

Interested in working in Denmark at a Danish software and technology house and to become part of the team behind Denmark's leading supplier of industry specific solutions for tourism companies in Scandinavia?

Then our clients and we have lots of exiting new challenges for you.

Our software team works with some of Sweden's most successful tourism companies. We develop and implement booking solutions with integrated POS and access control associated with a comprehensive product line. The CompuSoft team designs, develops, and supports custom-fit IT solutions, and you will participate in a close cooperation with 23 competent and dedicated colleagues.

We are looking for qualified and passionate IT consultants, who have ambition to become experts within our field, and who would like to create ingenious and sophisticated solutions, which generate value for our clients.

Your primary tasks:

- Support and service to our software installations in Sweden.
- Coordination, assistance, implementation, and documentation of software updates and tests.
- Cooperate on client projects across the entire organisation.
- Customer training - sometimes performed at the customer's address.
- In the long term, you will be part of our 24/7 support team.

Who are you?

- You are passionate about IT consulting and creating optimal and efficient solutions for our clients.
- You have a solid, all round experience with IT (server, clients, Microsoft Office, printers, network, and databases).
- You have experience with elimination and documentation of software irregularity.
- You have thorough knowledge of IT standard applications (MS Office products).
- You are service minded and possess good communication and negotiation skills.
- You speak fluent Swedish and have good language skills in English as well.

When you start:

When you start your new job at CompuSoft, you will get a review of our various solutions. We will invite you to join a programme focused on your professional development and introduction training in CompuSoft products.

The CompuSoft organisation has a flat and team-based structure that gives you great opportunities to influence your workday and your personal development. We look forward to welcoming you as our new colleague.

About CompuSoft:

CompuSoft is a leading supplier of industry specific solutions for tourism companies in Scandinavia. In recent years, our market shares have increased significantly and are steadily increasing. The CompuSoft team consists of 23 dedicated employees. We specialise in custom-fit industry specific solutions for tourism companies, and we provide the most comprehensive software platform for the market segment B2B. CompuSoft was established in 1987 and has several times been awarded the highest credit rating: "Triple A".
